COMMUNITY HEALTH CELL

P R E F A C E

INDIA presents a unique case in terms of sheer size of its population characterised by heterogeneity in respect of physical, economic, social and cultural conditions. Its population of 685 million accounted in 1981 (double of the 1947 figures of 342 million) for about 15% of the total world population with only 2.4% of the total land area (3287.3 thousand sq. km.). The present estimate of the population is exceeding 750 million of which 76.69% resides in almost 6 lakh villages spread over 412 districts (1981 census).

The Republic of India has a federal structure consisting of 25 States and 7 Union Territories. According to the latest estimates released by the Registrar General of India based on SRS, the All-India figures of birth, death and infant mortality rate are given as hereunder:

Area	Birth Rate	Death Rate	Infant Mortality Rate
Combined	32.4	11.1	96
Rural	34.1	12.1	105
Urban	27.0	7.6	62

The Constitution of India envisages the establishment of new social order based on equality, freedom, justice and the dignity of the individual. It aims at the elimination of poverty, ignorance and ill-health and directs the State with regard to the raising the level of nutrition and of the standard of living of the people and the improvement in the public health as amongst its primary duty, securing the health and strength of workers, men and women, especially ensuring children are given opportunities to develop in healthy manner. Constitutionally while public Health, sanitation, hospitals and dispensaries are the responsibilities of the States, population control and Family Planning, drugs, prevention of food adulteration are concurrent subjects.

India achieved independence in 1947. Soon thereafter, in 1951, India initiated the process of planning development to raise the living standard of its people, and to open up for them new opportunities for a richer and more varied life.

The programme of establishing of primary health centres with 3 sub-centres and 4 to 6 beds per primary health centre (PHC) in Community Development Block, having a population of 60,000 to 80,000 was launched as an integral part of the Community Development Programme in October, 1952.

Consequently, over the past 3 decades the health services organisation and infrastructure have undergone extensive changes and extension in stages following review by a number of expert committees, namely the Mudaliar Committee (1974) and Srivastava Committee (1975). Progressive changes have been introduced into the programme over the 6th Five Year Plan periods.

India is a signatory to the Alma Ata Declaration of 1978 and is committed to attaining the goals of "Health For All" by year 2000 A.D. through the primary health care approach. Consequently while formulating the 6th Five Year Plan (1980-85), a critical review was made of the approaches in the First Five Year Plan. Based on this a long term perspective plan was outlined by the Government for achieving the Health For All goals. The National Health Policy was officially adopted by the Parliament in 1983. Health For All principles and strategies were also incorporated in the 6th and 7th Five Year Plans.

After India became a signatory to Alma Ata Declaration of 1978, the Government has started concentrating on the development of rural health infrastructure so as to provide health care services to about 80% of rural population which had by and large remained neglected. The stress in the National Health Policy is on the provision of preventive, promotive and rehabilitative health services to the people, thus representing a shift from medical care to health care and from the urban to the rural population. The main objective is to place the health of the people in the hands of the people through the primary health care approach.

The delivery of Primary Health Care is the foundation of rural health care system and forms an integral part of the national health care system. For developing country's vast human resources and for the acceleration and speeding up of the socio-economic development and attaining improved quality of life, Primary health care is accepted as one of the main instruments of action. Primary Health Care is essential health care for all citizens, easily accessible and at a cost which the citizens and the community can afford.

In the rural area services are provided through a network of integrated health and family welfare delivery system. Health care programmes have been re-structured and re-oriented from time to time for attaining the objectives of national health policy and goals for HFA by 2000 A.D. Priority has been accorded to extension & expansion and consolidation of the rural health infrastructure viz sub-centres, primary health centres and community health centres.

Details of the rural health programmes are given hereunder :

i. *DAIS (TRADITIONAL BIRTH ATTENDANT) TRAINING PROGRAMME:*

Dais training programme aims at imparting training to all practising dais in the country and is receiving priority attention in order to reduce the maternal and infant mortality rate by conducting aseptic deliveries and provide better ante-natal

1069

ii

G10V130

and post-natal care. The duration of the training is one month. So far 558919 dais have been trained.

ii. *VILLAGE HEALTH GUIDE SCHEME* : The scheme was introduced during 1977 with the objective of providing a cadre of voluntary health workers selected by the village community, and they would undergo training of 3 months duration in the promotive, preventive and elementary health care aspects so as to provide integrated primary health care services at the village level. This volunteer would undergo training at the nearest PHC or sub-centre. So far, 392344 health guides have been trained.

iii. *SUB CENTRES*: Sub-centres are being established on the basis of one sub-centre for every 5000 population in general and for every 3000 in hilly, tribal and backward areas. Each sub-centre is manned by a trained female Health Worker (ANM) and a trained male Health Worker. All the sub-centres required in the country would be established by 31/3/90.

iv. *PRIMARY HEALTH CENTRES* : Primary health centres are established for an average of every 30,000 rural population in general and for every 20,000 population in hilly, tribal and backward areas. This primary health centre is manned by a Medical Officer, other para-medical and other staff. All the primary health centres required in the country are expected to be established by 31.3.90. Each PHC provides supportive supervision to 6 sub-centres and serves as a referral institution for these sub-centres.

v. *COMMUNITY HEALTH CENTRES* : It has been decided to have one community health centres for every 1 to 1.20 lakh of population so as to serve as a referral institution, having a minimum of 30 beds and 4 specialists, for 4 Primary Health Centres. By 31.3.90, it is expected to have 50% of the total required Community Health Centres in Position in the country.

The present status of sub-centres, primary health centres and community health centres is given below :

Institution	No. in position as on 30.9.87	No. required by by 31.3.90
Sub-Centres	1,02,160	1.30 lakh
Primary Health Centres	14,409	21,666
Community Health Centres	1,293	2,708

vi. *TRAINING FACILITIES* : A large number of training centres/schools have been established in the country to train ANMs, LHVs and Multipurpose Workers (M). Regional Teachers Training Institutions have also been established in order to meet the shortage of nursing teachers/nurses in the Female Multipurpose Worker and Health Assistants Schools in the country. Training programmes have also been initiated for the training of lab-technicians, community health officers (CHO), pharmacists and specialists working at primary health centres and community health centres.

INTRODUCTION

A Quarterly Bulletin on "Rural Health Statistics in India" is being regularly brought out by the Rural Health Division of the Directorate General of Health Services, Nirman Bhawan, New Delhi-110 011. It provides information based on latest available statistical data on various aspects of the following major schemes :

INFRASTRUCTURE

- a) Establishment of sub-centres; Primary Health Centres and Community Health Centres.
- b) Number of PHCs & sub-centres required and in position in Tribal Areas.
- c) Construction of buildings for sub-centres and PHCs.

TRAINING

- a) Village Health Guide Training Programme.
- b) Alternative Health Guide Scheme.
- c) Dais Training Programme.
- d) MPW Training Programme.
- e) Establishment of HW(F)/ANM and HA(F)/LHV Training Schools and their Training Programme.

HEALTH MAN-POWER

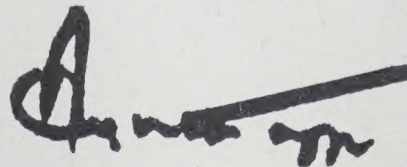

- a) Health Man-power in Rural Areas.

The material of this Quarterly Bulletin has been divided into three parts. *Part I* contains all-India status in respect of primary health care facilities. State/UT-wise position of progress of primary health care facilities in India is given in *Part II*. While *Part III* contains some parameters of achievement by States and UTs in respect of rural health programmes.

We express our deep gratitude to the States & UTs for making available their performance statistics in time for the inclusion of the same in the bulletin. However, in spite of our best efforts to get the information on time from all the States & UTs, still some States/UTs lagged behind in this regard. I place on record appreciation of the efforts put in by Shri R.K. Wasan, Deputy Director and his colleagues

Mr. D.V. Singh and Mr. B. Singh of Statistical Cell in bringing out this publication.

It is hoped that this quarterly bulletin will be used as an important source of material by those who are involved in the field of health administration, planning & management and decision-making for implementation of various rural health schemes, in spite of some inherent limitations.

(DR. A.K. BHATTACHARYA)
Deputy Director General (RH)

New Delhi-110 011

PART-III

**SOME PARAMETERS OF ACHIEVEMENTS OF
RURAL HEALTH SCHEMES
IN INDIA**

STATEMENT-XVI

LEVEL OF ACHIEVEMENT OF SOME NORMS.
ALL INDIA POSITION AS ON 30.9.1987.

S. No.	Parameters/indicators	National Norms	Norms achieved/established (approximate)
1	2	3	4
1.	Population covered by a Sub-centres	3000-5000	5648
2.	Population covered by a P.H.C.	20,000-30,000	40041
3.	Population covered by a community Health Centres	About 1 lakh	4.45 lakhs
4.	No. of Sub-centres for each P.H.C.	6 Sub-Centres	7 Sub-Centres
5.	No. of Primary Health Centres for each community Health Centre	4 P.H.Cs	11.1 P.H.Cs
6.	Trained Village Health Guide	One for each village/1000 Population	1.49 Village/1298 population
7.	Trained Dai	At least one for each village	1.07 Villages/1031 population
8.	Population served by Health Workers (Male and Female)	M : 3000 - 5000 F : 3000 - 5000	6777 5364
9.	Ratio of HA(M) : HW(M)	1:6	1:3:4
10.	Ratio of HA(F) : HW(F)	1:6	1:6.2

STATEMENT - XVII

CLASSIFICATION OF STATES/ UTs ACCORDING TO COVERAGE OF POPULATION BY A SUB-CENTRE

1	2	3	4
1	1000-3000	4	1. Lakshadweep (1686) 2. Mizoram (2341) 3. Chandigarh (2592) 4. Sikkim (2818)
2	3000-5000	12	5. Manipur (3397) 6. Pondicherry (4014) 7. Nagaland (4031) 8. Gujarat (4280) 9. A & N Islands (4334) 10. D&N Haveli (4342) 11. Himachal Pradesh (4552) 12. Meghalaya (4566) 13. Goa (4637) 14. Maharashtra (4800) 15. Punjab (4838) 16 Tamil Nadu (4738)
3	5000-7000	9	17. Uttar Pradesh (5186) 18. Karanataka (5492) 19. West Bengal (5795) 20. Orissa (5813) 21. Haryana (5814) 22. Andhra Pr. (6023) 23. Madhya Pradesh (6200) 24. Rajasthan (6425) 25 Kerala (6674)
4	7000-9000	3	26. Bihar (7059) 27. Tripura (7722) 28. Assam 7729
5	9000-11000	3	29. Arunachal Pradesh (9389) 30. J & K (9504) 31. Delhi (10869)

NOTE : 1. Daman & Diu are included in Goa.

2. 16 states/UTs falling in the population ranges 1000-3000 and 3000-5000, have achieved the National Norms of population to be served by a sub-centre

STATEMENT-XVIII

CLASSIFICATION OF STATES/UTs ACCORDING TO COVERAGE OF
POPULATION BY A PHC

S.No.	Range of population served	No. of States/UTs in the range	States/UTs having achieved the population range
1	2	3	4
1.	1000-10,000	3	1 Lakshadweep (3371) 2. Sikkim (5640) 3. Punjab (7490)
2.	10,000-20,000	4	4 Orissa (14399) 5 Nagaland (14906) 6. Mizoram (16746) 7. A & N Island (17770)
3.	20,000-30,000	5	8. D&N Haveli (22580) 9. Himachal Pradesh (26203) 10. Meghalaya (26519) 11. Manipur (28670) 12. Maharashtra (28908)
4.	30,000-40,000	3	13. Arunachal Pradesh (34270) 14. West Bengal (34677) 15. J.K. (38650)
5.	40,000-50,000	5	16. Haryana (41305) 17. Andhra Pradesh (44490) 18. Pondicherry (45622) 19. Uttar Pradesh (48662) 20. Madhya Pradesh (49312)
6.	50,000-60,000	8	21. Tamil Nadu (50010) 22. Rajasthan (51489) 23. Bihar (52637) 24. Kerala (53235) 25. Tripura (54056) 26. Gujarat (56249) 27. Delhi (57063) 28. Goa (57629)
7.	60,000 and above	8	29. Karnataka (61576) 30. Assam (61807)

NOTE : 1. Daman and Diu are included in Goa.
 2. Chandigarh has not established any P.H.C.
 3. 12 States/UTs falling in the three ranges-(1000-10,000), (10,000-20,000) and (20000-30000) have achieved the national norms of population to be served by a Primary Health Centre.

STATEMENT XIX

**CLASSIFICATION OF STATES/UTs ACCORDING TO
COVERAGE OF POPULATION BY A COMMUNITY
HEALTH CENTRE**

S.No.	Range of population served (in lakh)	Number of States/UTs in the range	States/UTs having achieved the population Range.
1	2	3	4
1.	Below one lakh	1	1. Chandigarh (0.37)
2.	100-300	10	1. Himachal Pradesh (1.42) 2. Maharashtra (1.60) 3. Manipur (1.96) 4. Goa (2.02) 5. Mizoram (2.18) 6. Karnataka (2.27) 7. Arunachal Pradesh (2.28) 8. Nagaland (2.63) 9. Tripura (2.64) 10. Pondicherry (2.93)
3.	300-500	7	11. Gujarat (3.47) 12. Rajasthan (3.58) 13. Orissa (3.93) 14. Meghalaya (4.15) 15. J&K (4.41) 16. Andhara Pradesh (4.44) 17. Tamil Nadu (4.99)
4.	500-700	4	18. Madhya Pradesh (5.13) 19. Haryana (5.17) 20. Punjab (5.94) 21. Assam 6.41
5.	7 lakh and above	4	22. Uttar Pradesh (7.49) 23. Bihar (8.96) 24. West Bengal (10.10) 25. Kerala (56.30)

- NOTE : 1. Daman & Diu are included in Goa.
2. Sikkim, A&N Islands, D&N Haveli, Delhi and Lakshadweep have not established any community Health centre.
3. Only Chandigarh has achieved the National Norms of population to be served by a community Health centre.
4. Figs. in brackets indicate Population in lakh.
